1. Introduction

1.1. About your proposal

All documentation relative to the call is provided on the following page of the FLAG-ERA website:

Prior to submission, the project coordinator must carefully read the Call Announcement and prepare the joint project proposal (to be submitted in PDF format) following the template available on the call page.

1.2. About the submission system

The FLAG-ERA JTC 2023 electronic submission system is based on the French National Research Agency (ANR) electronic submission platform. The present document is designed to guide you through the submission process and ensure a smooth submission.

The platform is available in French and English. Click on the flag in the upper right corner of the window to change the language.

Note that some features of the submission platform are not used for this call and that some fields in the interface can be safely ignored. When it occurs, it will be mentioned in this document.

Each modified page in the submission platform must be saved (using the “Save” button) before going to another page.

1.3. Roles in the submission process

A consortium is composed of project partners represented each by a Principal Investigator (PI). The project coordinator creates the proposal in the submission system and adds the other project partners. The partner PIs are automatically informed by email. The email invites them to log into the system in order to complete, check or modify the information provided by the coordinator about them. It is the responsibility of the coordinator to ensure that the partner information is properly filled in. When the proposal is complete, the coordinator can lock it, which prevents the other partners to change their information. Only the coordinator is allowed to modify the project-level information.
2. How to create your proposal

In order to create your proposal, you need to proceed as follows:

- Request the creation of the proposal;
- Create the proposal.

2.1. Request the creation of the proposal

There are three sub-calls to the JTC 2023. Each of them is associated to a specific URL to request the creation of the proposal:

- **Graphene (basic research)**
- **Graphene (applied research and innovation)**
- **HBP (basic and applied research)**

The proposal should be created by the coordinator.

Enter your email address and click on ‘Validate’ button. If you do not have already an account, an activation email will be sent to the email address entered. Otherwise a simple confirmation email will be sent and you can proceed to the next step by log in at your account at [https://aap.agencerecherche.fr](https://aap.agencerecherche.fr) (you can skip the point 2.2.).
2.2. Activation of your account

You have received the email below. Click on the link provided to activate your account by entering your password.

Hello,

This is an automated email with your login for the ANR information system (https://seq.agence-recherche.fr).
Please click on the link below and follow the procedure to complete the activation of your account.

2.3. Create the proposal

Go to the authentication page: https://aap.agencerecherche.fr. This link is also the one to use to access your proposal in the next connections to the submission system.

Then, select ‘Project Coordinator’.
Finally, click on ‘Submit a proposal’ to create your proposal. After this step, you can start fill-in the system by adding the information about your project proposal (see 3.).

At the authentication page, two roles are available:

- Project Coordinator (can modify all the information)
- Project Partner (can modify its own information, where appropriate)
3. How to fill in your proposal

3.1. Identification of the project and of the coordinator

You do not need to translate the title in French. You can simply copy and paste the Project English title here.

Choose the research category of your project.
3.2. Information about your proposal

Once you have provided the project and coordinator identification information, you have access to the following proposal information tabs (from the left to the right side of the screen):

1. Partnership and tasks
2. Partners/Organisations files
3. Identity of the Project
4. Scientific Abstract
5. Scientific Document
6. Submission of the project

3.2.1. Partnership and tasks

Under this tab, the coordinator can fill in the consortium composition and provide basic information about each partner. Partners can be added, edited and deleted.
Click on “Modify” to provide information about a partner (name, acronym, category, country, funding organisation if applicable, amount of requested funding, and PI information; see the pop-up window shown below).
3.2.2. Partners/Organisations files

Proposals without French partners: This tab enables you to provide further information about each partner. For each partner (see below how to select it), fill in the two sub-tabs Administrative data and Financial data. Only fields marked with a * are mandatory.

Proposals with French partners: French partners are requested to fill in these two sub-tabs with additional information. Bear mind that it can takes more time and require the support of the French partners themselves.

3.2.5. Scientific Document

Under this tab must be uploaded the proposal document in PDF format. The letters of support can be uploaded in the section “Annex to the scientific document”.

The scientific document can be uploaded as many times as you wish. The new file overwrites the former one.
3.2.6. Submission of the project

This tab enables the coordinator to lock and unlock the project proposal. When the proposal is locked, PIs from other partners cannot modify their information.

The tab also provides information on the proposal validity. Alerts shown in red are blocking issues for the submission.

There is no *submit* button once you finalise your submission. The submission is automatic. In the tab *submission of your project*, please check if a green sentence indicating that "The conditions for submission of your proposal are met." is displayed. If a red or an orange sentence is displayed, please check again all the tabs or your project will be automatic considered by the system as *not submitted*.

A confirmation email is sent to the coordinator at call closure.

---

**Project status : Submitting**

Your application will automatically be considered submitted if all the following conditions are met:
- The scientific document has been submitted
- The grant amount requested for the project is non-zero at the closing of the call for proposals

Only information entered on the submission website by the call for proposals closing date will be considered.

An electronic confirmation will be sent to the coordinator on the call for proposals closing date.

Coordinators are asked to lock their projects by the closing date.

The project may be unlocked by the coordinator prior to the closing date if additional changes are necessary.
